Summary

I am a passionate Front-End Developer with a degree in Business Information Systems from Tanta University (Class of 2024). I have built a solid foundation through hands-on training in the Digital Egypt Pioneers Initiative. Proficient in HTML, CSS, JavaScript, React, Bootstrap, TypeScript, and Next.js, I specialize in developing responsive, scalable, and user-centric web applications. My experience includes working closely with UX/UI designers and back-end developers, allowing me to build seamless, performance-optimized digital solutions. I'm driven to contribute to innovative teams and deliver impactful projects that elevate user experience and meet business goals.

Work Experience

Freelancer

May 2023 - Present

Front End Developer

- Worked as a freelance developer, delivering a wide range of responsive and interactive websites using modern technologies.
- Built complete front-end solutions with HTML, CSS, JavaScript, React, Next.js, and TypeScript.
- Integrated RESTful APIs and handled state management using tools like Redux and React Query.
- Collaborated with clients to understand project goals, adapt to diverse requirements, and deliver high-quality, maintainable code.
- Ensured performance optimization, SEO best practices, and cross-browser compatibility.
- Managed project timelines independently and contributed effectively in team-based environments.

YES Course Academy

Mar 2022 – Dec 2023

Front-End Instructor

- Delivered hands-on front-end development training to students, covering core technologies such as HTML, CSS, JavaScript, and React.
- Designed and implemented structured lesson plans, coding exercises, and real-world projects to enhance student understanding and engagement.
- Provided personalized support, feedback, and mentoring to help students build strong foundations in web development.
- Encouraged best practices in responsive design, code organization, and UI/UX principles.
- Contributed to shaping the next generation of developers by fostering a collaborative and growth-focused learning environment.

Freelance WordPress Developer

(Remote)

Jan 2023 – Jan 2023

Developed custom WordPress websites tailored to client needs, focusing on performance, responsive design, and SEO optimization.

- Customized themes and plugins to deliver unique features and seamless user experiences.
- Handled full website lifecycle: from setup and deployment to maintenance and optimization.
- Collaborated with designers and clients to translate design concepts into fully functional websites using Elementor and custom code.
- Ensured best practices in performance, accessibility, and security across all delivered projects.

Projects

This the most important projects

Bestatup Platform

JavaScript, HTML, CSS, Bootstrap, Laravel (MVC)

<https://bestatup.ai/>

- Developed a dynamic and user-friendly web platform offering rare and valuable services for startups, including customized Business Plans, AI-generated articles, and various entrepreneurial tools.
- Built the backend using Laravel (MVC architecture) to ensure clean code structure, scalability, and secure data handling.
- Designed and implemented the frontend using HTML, CSS, Bootstrap, and JavaScript, focusing on responsive layout and seamless navigation across devices.
- Played a key role in enhancing user experience, ensuring intuitive flows, clear content presentation, and easy access to services.
- Implemented interactive features that allow users to request and generate tailored business content, boosting engagement and usability.
- Worked closely with the design and marketing teams to align features with user needs and startup market trends.
- Optimized performance and accessibility, ensuring fast load times and compliance with modern web standards.

Alsaffwa - Educational Platform

<https://www.alsaffwa.com/>

React, TypeScript, Tailwind CSS – .NET, SQLite

- Developed the front-end of an educational website using **React** and **TypeScript**, with a focus on clarity and performance.
- Used **Tailwind CSS** for consistent and modern UI styling across all pages.
- Integrated front-end components with a **.NET** back-end for handling course content, inquiries, and user access.

Petalya – Saudi Company Website

<https://petalya.org/>

React, TypeScript, Tailwind CSS – .NET, SQLite

- Built a modern, responsive website for a Saudi-based company using **React** and **TypeScript**, tailored for showcasing services and projects.
- Styled components with **Tailwind CSS** for a clean and cohesive look.
- Collaborated with back-end developers to integrate dynamic content via **.NET APIs**, enhancing interactivity and engagement.

CH2B – Yemeni Company Website (زي ما بذك)

<https://ch2b.net/>

React, TypeScript, Tailwind CSS – .NET, SQLite

- Developed a responsive front-end for a Yemeni services company website, with a strong focus on usability and visual appeal.

- Built dynamic UI components using **React** and **Tailwind CSS**, ensuring smooth user flows and easy service navigation.
- Worked closely with back-end APIs in **.NET** to display services, handle client requests, and improve conversion.

Skills

Technical Skills HTML/CSS, JavaScript, Bootstrap, ReactJs, TypeScript, NuxtJs, Tailwind, SCSS, Typescript, Linux, Git, Docker, WordPress

Soft SkillsTime Management, Teamwork, Problem-solving, Multitasking, Communication, Responsibility.

Core Competencies

UI/UX Problem-Solving – Ability to analyze user flows, identify pain points, and deliver intuitive, user-friendly interfaces.

Front-End Performance Optimization – Skilled in optimizing rendering, minimizing load times, and implementing lazy loading and code splitting.

Responsive Design & Accessibility – Experience in crafting fully responsive layouts with accessibility standards (WCAG).

Front-End CI/CD – Familiar with deploying React applications using CI/CD tools (e.g., GitHub Actions, Vercel) and managing production workflows.

DOM Manipulation & Event Handling – Strong understanding of how the DOM works, with hands-on experience in managing events and state.

State Management – Experience with tools like Redux and React Context for managing complex state in scalable applications.

API Integration & Data Handling – Confident in consuming REST APIs and handling asynchronous data with tools like Axios, React Query, or SWR.

Education

Front-End Development Course – Erea Soft Academy	Dec 2024 – June 2025
Student in Digital Egypt Pioneers Initiative – DEPI	June 2024 – Nov 2024
which is offered by the Ministry of Communications	
Bachelor's in Business Information	Sept 2020 - 2024
Systems Tanta University, 2024 - Graduated with a High "Very Good" grade
