

Fouad Emad El-Bakly

Full-Stack Developer (MERN Stack)

Cairo, Egypt

(+20) 1099460174 | [My Email](#) | [Github](#) | [Profile](#) | [LinkedIn](#)

Summary

Full-Stack Developer (MERN Stack) with a degree in Business Information Systems from Tanta University (2024). Skilled in MongoDB, Express.js, React, Node.js, and modern front-end tools like Next.js, TypeScript, and Bootstrap. Experienced in building scalable, secure, and user-focused web applications, collaborating across teams to deliver high-quality digital solutions that enhance performance and user experience.

Work Experience

Software Developer – ABS CO (EGP Company)

Jan 2026 – Present

- Developing modern web applications using **Next.js**, **TypeScript**, and **Node.js**.
- Designing scalable and maintainable front-end architecture with reusable components.
- Integrating and consuming REST APIs while ensuring high performance and security.
- Optimizing application performance and improving user experience across devices.
- Working in a collaborative team environment using **Git**, **Agile workflows**, and **code reviews**.

Software Developer – Leen (Saudi Arabia Company)

Mar 2025 – Nov 2025

- Worked on both front-end and back-end features using the **MERN stack** to deliver integrated solutions.
- Improved application performance, code quality, and maintainability by following industry best practices.

Freelancer

Oct 2023 – Present

Full-Stack Developer (MERN Stack)

- Worked as a freelance Full-Stack Developer, delivering end-to-end web applications using the MERN stack
- Designed and implemented **RESTful APIs** integrated seamlessly with front-end applications
- Managed **state** using **Redux** and **React Query** for scalable, maintainable solutions
- Optimized **performance**, ensured **SEO best practices**, and built **responsive, cross-browser** designs

YES Course Academy

Mar 2022 – Dec 2023

Instructor Front-End

- Delivered hands-on front-end development training to students, covering core technologies such as HTML, CSS, JavaScript
- Designed and implemented structured lesson plans, coding exercises, and real-world projects

Last projects

Chat App (Back-end)

Node.js, Express.js, MongoDB, Mongoose, Socket.io, JWT, Multer, Cloudinary

- Built the complete back-end for Chat, a WhatsApp-like messaging application using **Node.js**, **Express**, and **MongoDB**. Implemented real-time messaging with **Socket.io**, **JWT** authentication, user presence updates, and secure media uploads via **Multer** + **Cloudinary**. Focused on performance, scalability, and clean API architecture.

Lan Tok (Back-end App)

Node.js, Express.js, MongoDB, Mongoose, Multer, Cloudinary, Rate Limiting

- Designed and developed the complete back-end architecture for **LanTok**, a short-video social media platform inspired by TikTok. Implemented a scalable and modular REST API using **Node.js** and **Express**, with secure user authentication (**JWT**), profile management, and advanced media handling. Integrated **MongoDB** with **Mongoose** for efficient data modeling and optimized database interactions. Built a robust video upload pipeline using **Multer** for receiving media and **Cloudinary** for cloud-based storage, transcoding, and CDN delivery.
- Applied **rate limiting**, request validation, and secure middleware to protect the platform from abuse and

ensure high availability.
Focused on clean architecture, code maintainability, and performance optimization while supporting features such as user profiles, followers system, likes, comments, and personalized video feeds.

Prime Academy.

Next js, TypeScript, Redux Toolkit, Zustand, Tailwind CSS <https://prime-edu.academy/>

Developed an academic front-end platform built entirely with modern Next js, TypeScript, Redux Toolkit, and Zustand for advanced state management.
Implemented responsive UI components using Tailwind CSS, ensuring high usability and seamless cross-device experience.
Focused on clean architecture, performance optimization, and maintainable code structure.

Ch2b Yemeni Company Website (زي ما بنك) <https://ch2b.net/>

Built a modern, responsive website for a Saudi-based company using **React** and **TypeScript**, tailored for showcasing services
Styled components with **Tailwind CSS** for a clean and cohesive look
Collaborated with back-end developers to integrate dynamic content via **Node.js APIs**, enhancing interactivity and engagement

Skills

Technical Skills

- Front-End:** HTML5, CSS3, JavaScript (ES6+), React.js, TypeScript, Next.js, Bootstrap, Tailwind CSS,
- Back-End:** Node.js, Express.js, RESTful APIs, Authentication & Authorization (JWT)
- Database:** MongoDB, Mongoose
- Tools & DevOps:** Git, GitHub, Docker, Linux, VS Code
- Other Skills:** Responsive Design, Performance Optimization, SEO Best Practice

Soft Skills

Time Management, Teamwork, Problem-Solving, Adaptability, Communication, Responsibility,

Core Competencies

- Front-End Development:** Next.js, React js, TypeScript, Tailwind CSS, JavaScript
- Back-End Development:** Node.js, Express.js, RESTful API Design & Integration
- Database Management:** MongoDB, Mongoose, Data Modeling & Query Optimization
- State Management:** Redux Toolkit, React Context, React Query
- Performance & Security:** Code optimization, scalability, and secure data handling
- Version Control & Collaboration:** Git, GitHub, Agile teamwork

Education

Full-Stack Web Development Course (MEAN Stack) -NTI	Sep-2025-January2026
Front-End in Digital Egypt Pioneers Initiative – DEPI	June 2024 – Nov 2024
Bachelor 's in Business Information Systems Tanta University, 2024 - Graduated with a High "Very Good" grade	Sept 2020 -Aug 2024
